To whom it may concern

Periodic servicing and maintenance of lifeboats, launching appliances and on-load release gear.

The Danish Maritime Authority does not require an authorization to carry out the above mentioned on Danish ships in the written moment.

But after examination of the conditions of Scanunit Danmark, the Danish Maritime Authority can confirm that they fulfil the requirements set in Msc/Circ. 1277, "Interim recommendation on conditions for authorization of service providers for lifeboats, launching appliances and on-load release gear" and Msc/Circ. 1206 "Measures to prevent accidents with lifeboats".

A documented quality system (ISO 9001 and 14001) are under implementing.

Yours sincerely,

Mogens Motzfeldt
Special Adviser
